Title

CCMU Overview and Health Management Information

Summary

Custom Care Management Unit (CCMU) is a customized unit developed and promoted jointly with Cigna and Towers Watson. The Cigna CCMU provides direct access to a team of nurses (CCMU health advocates) who provides a comprehensive and integrated care management approach. These nurses are Cigna staff that support CCMU.

Details - Internal

CCMU Overview: Click on links to expand.

System Identification

- **CCV:** Delegations with a CM (Case Management) Medical label (CCMU program for premium PHT accounts)
- **OLAM** states they are a CCMU client under Alerts or Health Advisor.
- **TruCare:** Member Information - Product Feature: CCMU

Individuals can partner with a nurse for one-on-one interactions that assists the individual in these areas: know what to expect if a hospital stay is required; assist in understanding discharge instructions; identification of gaps in care; short term, and complex case management; and more.

Primary engagement opportunities include:

- Pre-Admission Outreach
- Inpatient Advocacy
- Post-Discharge Outreach
- Predictive Model Outreach with additional focus on ALL cardiac and diabetes population

- All Cardiac and Diabetes cases, regardless of referral source, receives a 6-month post case closure follow up. The follow up is to assure the customer is successful with managing the condition and or to address and follow up on additional needs.

The CCMU health advocates take a personal and holistic approach to each person that they work with. The health advocate develops a care plan that addresses multiple needs and incorporates multiple resources either internally or externally. They also look for additional referral and integration opportunities.

- **Case Management** (refer to [CM Case Details - Program, Acuity, and Intensity](#))
- Case-level program types, acuities, and intensities are determined by the level of and duration of customer needs and CM actions. CM referral criteria are embedded within our tool logic (i.e. PreVue, Previs, Health Matters).
- **Specialty Case Management Coordination with Specialty Units:**
 - Oncology
 - Transplant
 - NICU (Neonatal Intensive Care Unit)
 - High Risk Maternity
- **Predictive Modeling Outreach**
 - Dollar thresholds and scoring.
 - Diabetes, Coronary Artery Disease, Congestive Heart Failure triggers.
 - Customizable triggers with dollar thresholds, diagnoses.

The focus of this model is on **high-acuity cases**. **Chronic engagement** is limited to the individuals with the highest risks and for **cardiac and diabetes**.

Role Support

- RN (Registered Nurse) Health Advocates
- Care Associates (who also support our Health Advisor (HA)/Personal Health Team (PHT) programs)
- Medical Director
- Aligned Behavioral Health Staff
- Dedicated Social Worker
- Dedicated Registered Dietitian (RD)
- HA contacts for consultation and seamless integration.

Location

- The primary team sits in Pittsburgh, Pennsylvania (Health Facilitation Center).
- Refer to Online Account Manager ([OLAM](#)) for complete list of key contacts.

Hours

- This program is available Monday through Friday 9 am - 6 pm across all-time zones.
- Off-hour calls are answered by the 24-Hour Nurse Line, who can make a referral so that a CCMU Health Advocate can follow up. This is in addition to HILs (Health Information Line) standard process.
